To whom it may concern,

Support to Upkeep Chamber Music Abu Dhabi (CMAD)

The United Nations Development Program in the UAE would like to support Chamber Music Abu Dhabi for the cultural benefits it brings to the UAE. We believe that CMAD by using music as a vehicle for cultural exchange helps bringing communities together, contributing to UAE's vision of cohesive society, as well as enhancing educational experience through in-school concerts, and experimental and master classes. Our enthusiasm for the string quartet stems from its ability to draw the audience into the world of music-making and communication across languages, cultures and national geographic boundaries.

It is one of UNDP's mandates to support the national, international cultural and academic entrepreneurship. By partnering with Chamber Music Abu Dhabi, together we make possible a wide range of public offerings including concerts, master classes, and lectures held by local institutions in the UAE.

UNDP wishes CMAD all the success in bridging the cultural gap and engaging youth in music – the art of peace and tranquility.

Sincerely,

Sayed Aqa

UN Resident Coordinator
